

## **SAMBRO team up with Home- Start for Half Term Family Treat**

We are delighted that Home-Start has been chosen by SAMBRO Toys to benefit from a really special half-term treat for local parents and children.

SAMBRO, are a leading toy manufacturer in Greater Manchester and to celebrate the launch of My Little Pony: The Movie, SAMBRO teamed up with us to provide a magical experience this half term.

We work with families who are struggling to cope with difficult life circumstances from poverty and poor mental health to illness and disability. Volunteers visit families in their own homes for just a couple of hours each week offering a mix of practical and emotional support. So to be able to offer this lovely experience for some of our families has been wonderful.

They were treated to a private screening of the new film as a special holiday treat. As well as enjoying free popcorn and drinks, our parents and children were treated like VIP guests and also received My Little Pony goody bags.

Tom Duffy, who is the Managing Director at SAMBRO said that they were extremely proud of their local roots and as SAMBRO continue to grow it is important to us to give something back to families and the wider community. He complimented Home Start on our work saying that we did fantastic work supporting young families and it's a privilege to work with us to gift this special cinematic treat.

We are absolutely thrilled that SAMBRO have chosen Home-Start as the charity to benefit from the film launch. Our families had the most amazing time; seeing the smiles on the children's faces was priceless and we cannot thank SAMRBO enough. It's a fantastic synergy- a local charity with a company that's also firmly rooted in the local community and we hope to continue our working relationship with them.
